

INIOLUWA NELSON AINA

inioluwa.aina06@stu.bmcc.cuny.edu ▪ (347)-631-0559 ▪ [LinkedIn](#) ▪ [Github](#) ▪ [Portfolio](#)

EDUCATION

Borough of Manhattan Community College | GPA: 3.8

Associates of Science; Major: Computer Science

Expected: December 2026

Course Work: Data Structure & Algorithms, Analytic Geometry & Calc II, Discrete Math, Computer Architecture, Advance Programming Techniques

SKILLS

Programming Languages: C++, JavaScript, SQL, Bash, Kotlin, HTML/XML

Frameworks & Technologies: ReactJS, TailwindCSS, Firebase

Developer Tools: Git/GitHub, Netlify, Figma

TECHNICAL PROJECTS & RESEARCH

Researcher - CIS Department BMCC

Optimization of Medical Image Reconstruction | C++, Javascript - [Github](#)

Feb 2026 - Present

- Developed a Filtered Back Projection (FBP) pipeline using frequency domain ramp filtering with DFT/IDFT operations to reconstruct incomplete MRI, CT, and X-ray imaging data.
- Implemented sinogram synthesis by rotating 2D phantoms through 180 projection angles using bilinear interpolation and projection accumulation techniques.
- Improved reconstruction accuracy using iterative techniques such as forward projection while analyzing the limitations of incomplete projection datasets.
- Added support for multiple reconstruction filters including Ram–Lak, Hamming, Gaussian, Butterworth, and Shepp–Logan to evaluate image sharpness and noise reduction performance.
- Supported benchmark phantom datasets including the Shepp–Logan phantom and custom-generated geometric phantoms for reconstruction experiments.

Personal Portfolio Website | ReactJS, TailwindCSS, Netlify - [Github](#)

April 2026 - Present

- Designed and developed a responsive personal portfolio website to showcase projects and technical skills
- Deployed and maintained the application using netlify and a custom domain with continuous deployment workflows

NextJob - Job Search Platform | HTML, CSS, Javascript - [Next-Job](#)

Jan 2026 - Mar 2026

- Designed a responsive job search website that allows users to filter and browse opportunities by relevant geo location and industry
- Integrated a third-party REST API to dynamically retrieve and display available job listings in real-time

Bank Account Management System | C++

Dec 2025 - Jan 2026

- Built a console based interface for creating accounts, utilizing file-based data persistence to ensure data integrity and user-session management

RELEVANT WORK EXPERIENCE

Security Officer at Madison Security Group, New York

Dec 2024 - Present

- Monitored and managed secure access to facilities, ensuring compliance with safety and security protocols
- Used digital logging systems to document incidents, visitor activity, and daily reports with accuracy
- Responded to incidents in real time, applying critical thinking and problem-solving skills under pressure

HONORS & AWARDS

Phi Theta Kappa Honor Society | BMCC, New York, NY

Member

2025 – Present

- Participated in scholarship and leadership development opportunities with fellow honor students.

Deans List - Borough of Manhattan Community College

Fall 2025
