PROJECTS & RESEARCH

Researcher - CIS Department BMCC

Optimization of Medical Image Reconstruction | C++

Feb 2026 - Present

- Analyzed the process of scanning biological specimens through Filtered Back Projection (FBP) using C++ to reconstruct incomplete data from MRI, CT and X-ray imaging
- Improved accuracy and usability of medical imaging analysis using iterative techniques like forward projection

NextJob - Job Search Platform | HTML, CSS, Javascript - Github

Jan 2026 - Mar 2026

- Designed a responsive job search website that allows users to filter and browse opportunities by relevant geo location and industry
- Integrated a third-party REST API to dynamically retrieve and display available job listings in real-time

Bank Account Management System | C++

Dec 2025 - Jan 2026

- Developed a console based interface for creating account and retrieving data for multiple users through a file-based management system

WORK EXPERIENCE

Security Officer at Madison Security Group, New York

Dec 2024 - Present

- Monitored and managed secure access to facilities, ensuring compliance with safety and security protocols
- Used digital logging systems to document incidents, visitor activity, and daily reports with accuracy
- Responded to incidents in real time, applying critical thinking and problem-solving skills under pressure

HONORS & AWARDS

Phi Theta Kappa Honor Society | BMCC, New York, NY

Member

2025 – Present

- Participated in scholarship and leadership development opportunities with fellow honor students.

Deans List - Borough of Manhattan Community College

Fall 2025
